

# RETROFIT PROGRAM

**SAVE ENERGY.  
TRANSFORM YOUR BUSINESS.**

## BIG CHANGES HAPPEN WHEN YOU START WITH SAVING ENERGY

Energy efficiency is a smart and simple way to unlock your business's potential. With energy-efficient upgrades, you can find cost savings to reinvest in growing your business. Plus, you can improve productivity, employee comfort and your customer experience along the way — keeping you competitive.

## WHAT IS THE RETROFIT PROGRAM?

The Save on Energy Retrofit program offers businesses in Ontario incentives to upgrade equipment, reduce energy bills, lower their carbon footprint and increase productivity. The incentives are designed to help businesses speed up their payback on energy-efficiency equipment upgrades. The program offers incentives in two streams:

- **Custom stream** for larger, more complex retrofit projects to capture greater energy savings
- **Prescriptive stream** for targeted retrofit projects focusing on commonly used products and technologies

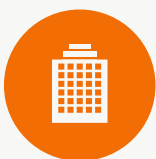

## KEY FEATURES

Retrofit program participants can expect:

- Incentives for a wide range of energy-efficiency measures for enhanced energy savings
- An easy-to-use Retrofit portal for submitting and processing applications
- Funding capped at 50% of eligible costs and no cap on incentives

## WHO SHOULD PARTICIPATE?

Small, medium and large businesses in a range of industry sectors across Ontario can apply to the Retrofit program, such as:

### COMMERCIAL

Includes offices, retail and grocery stores, restaurants, hotels and warehouses

### INDUSTRIAL

Includes food and beverage, automotive, plastics and packaging industries

### INSTITUTIONAL

Includes hospitals, universities, municipal halls and arenas

### MULTI-FAMILY RESIDENTIAL

Includes apartments (including low-income and social housing) and condominiums

### AGRICULTURAL

Includes dairy, swine and poultry farms, greenhouses and nurseries

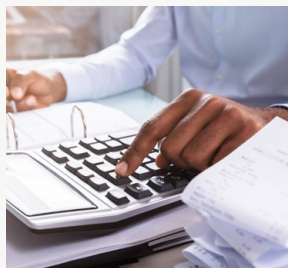

## WHAT KIND OF UPGRADES QUALIFY?

Projects that qualify for the Retrofit program provide measurable energy savings. These range from lighting upgrades and HVAC controls to variable frequency drives and more.

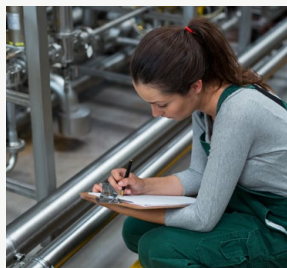

Visit [SaveOnEnergy.ca/Retrofit](https://www.saveonenergy.ca/Retrofit) for a full list of eligible projects.

## WHAT ARE THE KEY BENEFITS?

Energy-saving upgrades provide a number of benefits to your business, from boosting operational efficiency to keeping employees and customers happier. Here are some of the benefits to participating:

Cost savings on electricity bills

Immediate operational and maintenance savings

Up-to-date, efficient equipment and technology

Greater employee comfort and productivity

## HOW DOES IT WORK?

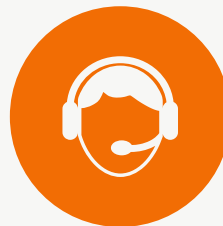

The Retrofit program offers incentives for a wide range of energy-efficient equipment. Here's what to know before you apply:

Incentive levels are based on the size or output and efficiency of the new equipment.

Apply online through the Retrofit portal where you'll enter into the participant agreement.

To get your application approved faster, visit our website or contact a Save on Energy representative.
